**WILL MEET TO FIX WAGE SCALE**

[Republican A. P. Leased Wire]

GREAT FALLS, Mont., Aug. 27.—Representatives of the Montana Coal Operators' Association and the Montana camps of the United Mine Workers of America will meet here September 1 to fix the wage scale and other details of their working agreement for the next two years.

So far the miners have not announced their schedule of demands, but the operators are expecting any unusual obstacles in coming to a settlement. This year, however, has brought a condition in the labor market vastly different from that of two years ago. Now workmen are scarce in every part of the state and this is a situation that undoubtedly will have effect on the miners' program.

## W. O. W. LEADER VISITS HERE

Woodmen of the World today will greet their sovereign auditor, T. E. Patterson, of Omaha, who, with his wife and daughter, arrived last night for a short visit.

Chief among the fraternal insurance experts of the world, Mr. Patterson is known far and wide. He proved to be a genial person, widely informed, and a mood to be pleased with while he has seen of Arizona. Phoenix pleased him, and he intends to see more of it.

The party, which arrived from Tucson, was met by Council Commander Thomas W. Neale, V. Anderson and H. A. Davis, who escorted the visitors to their hotels. During the evening they saw somewhat of Phoenix. Today they will be given an auto ride about the valley.

Tonight at the K. P. Hall 400 local Woodmen and a large number of others from about the valley will meet with Mr. Patterson. There will be a social hour and refreshments and cigars will be served. A special invitation has been sent out to the 600 Woodmen of the outside towns to come to Phoenix for this meeting.

There are a million members of the W. O. W. The fraternity has \$20,000,000 in its reserve fund, and of this \$100,000,000 is invested in Arizona state, county and municipal bonds. According to the auditor the order thinks very well of Arizona securities.

There will be a special program at tonight's meeting.

**COULDN'T CHANGE "4" SAY JEFFERY MEN**

In announcing its plans for the coming year, the Nash Motors company of Kenosha, Wisconsin, states that there will be no essential changes in the Jeffery Four, which for three years has been rendering efficient service in the hands of thousands of satisfied owners.

Sixty days ago the Jeffery company announced that it had added to the four-cylinder model the same graceful roll-over body feature that met with such wide-spread popularity on the Jeffery Six.

The Jeffery Four occupies a distinctive position in the trade, it being the car in which the Jeffery engineers introduced to America the high-speed, long-stroke, high efficiency type of motor.

In continuing the Jeffery Four with virtually no changes, the engineers have been guided by weeks of close study and tests, and by a thorough investigation of the thousands of records received from owners of the car.
